Product info

Application Activator

Art.: 80.0895.6100
Spray bottle 500 ml

Application Activator is a universal, quickly evaporating application liquid for mounting self-adhesive advertising texts, stickers and foils. Due to its unique composition the product retains its effect for precisely the right amount of time. This means that it combines all the benefits of wet and dry pasting.

The advertising text, sticker or foil can be positioned perfectly. This results in professional mounting with quick adhesion and no air bubbles or soap residues. Because no chemical residues are left behind, the advertising text, sticker or foil achieves its optimal adhesion.

Application Activator evaporates completely and is therefore perfect for applying large and small stickers and advertising texts. It is suited for application in advertising, construction and mobility.

The spray bottle with trigger makes Application Activator very user-friendly and easy to apply. This packaging also keeps the product clean and gives it a long storage life.

- Makes the application of self-adhesive advertising texts, stickers and foils very simple.
- Evaporates quickly without leaving any residue.
- Optimal adhesion without air bubbles and soap residue.
- Gives a professional result.
- Allows easy positioning of the sticker / foil.
