Product info

Easy Clean 1 l

Art.: 04.1153.9999
1 l

Easy Clean is a professional liquid cleaner for use on just about any kind of surface. It removes nicotine, grease, dirt, salt and silicone residues and is also very effective in removing insect residues.

Because Easy Clean does not affect the surface, it is extremely well suited as a general cleaner. Therefore the product can be used safely but very effectively to clean delicate parts such as hard and soft plastics, lacquer, aluminium, chrome and canvas. It is also ideal for covering materials such as textiles, rubber, leather, imitation leather and various plastics.

Easy Clean is a thin liquid and therefore very easy to apply from a spray bottle or pressure tank. It can also be added as a cleaning product to a pressure cleaner. On heavily dirtied unpainted surfaces its cleaning power can be increased by using a brush. On painted surfaces the same effect can be achieved using a sponge. When used outdoors the object can be rinsed off with a pressure or steam cleaner after just a few minutes working time. The cleaning effect is optimal after a few minutes.

Easy Clean is ready to use and does not require further dilution. Due to its packaging in a 1 litre spray bottle Easy Clean is very user-friendly and can be applied directly. Besides the handy 1 l spray bottle, Easy Clean is also available in a 5 l and a 25 l refill can. The product can also be applied using the Innotec Bulb Shaped Bottle in combination with the 360° Trigger, or the Innotec Multi Sprayer.

- Suited for almost any surface (plastic, rubber, fabrics, leather, etc.).
- Very easy to use.
- Cleans deeply, safely and quickly.
- Ideal as silicone and nicotine remover.
- Does not leave streaks.
- Leaves a fresh smell behind.
