Product info

Easy Jet Sealant Gun

Art.: 90.0923.0007

Easy Jet is a high-quality sealant gun powered by compressed air and is part of the Structure Seal concept. This gun was specially developed for processing Structure Seal, a unique, permanently elastic sealant based on high-quality MS polymers. In combination with the Easy Jet sealant gun and the corresponding range of nozzles, it can be used to imitate virtually all factory-original structured seam seals as well as smooth door seams and flanged seams.

The Easy Jet gun is made of sturdy and durable materials and is maintenance-free. Its unique compact size makes it feel like an extension of the wrist and allows Structure Seal to be processed very easily and evenly.

The high-quality pressure regulator with pressure gauge (Pressure Regulator) included with the gun enables very precise adjustment of the air pressure.

- Made of sturdy and durable materials.
- Unique compact size.
- High-quality pressure regulator included.
- Specially developed for Structure Seal.
