Product info

Frame Finish

Art.: 02.3131.0010
Aerosol can 500 ml

Frame Finish is a specially developed original OEM black shine coating made from alkyd resin, which makes it very impact and chip resistant and extremely resistant to weathering, so that it is extremely well suited to the spraying of bodywork parts sprayed in RAL 9011 colours at the factory.

Frame Finish combines professional protection with an original OEM finish.

Frame Finish offers outstanding adhesion to old layers of lacquer and primers, as a result of which the product is very suitable for spraying or touching up chassis, vehicles, trucks, trailers, bodywork parts, agricultural machinery, containers, steel constructions, fencing, machinery, etc. Frame Finish can also be used to spray custom made items such as supports, braces and other bodywork modifications.

Frame Finish offers excellent cover and due to its fast drying is dust dry after 15 minutes.

Thanks to its aerosol packaging Frame Finish is extremely user-friendly and easy to apply. The unique combination of valve and nozzle rivals the quality of a spray gun in terms of yield and spray pattern.

- Beautiful even spray pattern and excellent cover thanks to the unique combination of valve and nozzle.
- Dust dry after 15 minutes (20°C / 65% RH).
- Tack free after 30 minutes (20°C / 65% RH).
- Completely hard after 7 days (20°C / 65% RH).
- Outstanding adhesion to old layers of lacquers and primers.
- Original OEM colour (RAL 9011) and shine.
- Very impact resistant when completely cured.
- OEM approved.
