Product info

High Trib Oil 500 ml

Art.: 03.1175.9999
Aerosol can 500 ml

High Trib Oil is an extremely high-quality and versatile lubricating oil with TRIBITEC technology, which guarantees excellent lubrication even under high pressure and temperature loads.

The revolutionary TRIBITEC technology is PTFE-free and uses active TRIBITEC additives to create an extremely durable protective layer. This protects the surfaces to be lubricated and makes them highly resistant to wear caused by friction.

Thanks to its low-viscosity synthetic base, High Trib Oil has excellent penetrating properties and offers reliable and consistent performance over a wide temperature range from -30°C to +260°C.

Due to its hydrophobic formulation, High Trib Oil also has very good anti-corrosion properties, making it ideal for applications exposed to varying weather conditions.

High Trib Oil is highly versatile and provides a user-friendly solution for all your lubrication needs, with a strong focus on performance and durability.

- PTFE-free TRIBITEC technology.
- Excellent lubrication at high pressure/temperature.
- Active additives form a durable coating on the surfaces to be lubricated.
- Synthetic base ensures highly consistent properties at temperatures from -30°C to +260°C.
- Highly penetrating.
- Water and corrosion resistant.
- Suitable for a wide range of applications.
- Durable and silicone-free.
