Technical info

Seal Fluid 5 l

Art.: 80.0458.9999
5 l

Seal Fluid is a ready-to-use agent for smoothing elastic sealants. Because of its mild formula Seal Fluid can be used on almost any surface.

Base:	Mild aqueous soap solution
Density:	± 1000 kg/m³
Consistency:	Liquid
Viscosity:	± 1 mPa.s
pH:	7,8 (almost neutral)
Application conditions:	Depending on the type of sealant used
Application method:	Shake well before each use. Apply directly to the sealant joint with an atomiser. Then smooth the sealant joint with a spatula. When using on porous surfaces (such as natural stone, concrete and stone) and on glass, rinse abundantly with water to prevent discolouration and staining. If the sealant will be sprayed or painted over, Seal Fluid must be rinsed off after the sealant has cured to guarantee good adhesion.
Cleaning of hands:	With Innotec Power Scrubs or with Innotec Safe Hand Clean Plus and water
Shelf life:	2 years in original, unopened packaging
Storage conditions:	Store cool, dry and frostfree
Type of batchcode:	F
EAN Code:	5400563031551

This technical info sheet replaces all previous versions.

All information is supplied without obligation and based on our knowledge and experience with the product under normal conditions. In practice, the information supplied can in no way replace the tests that need to be performed before first use of the product. only prior testing of the product can prove whether the product is indeed suitable for the intended application (or not). Thus, we cannot accept any responsibility in case our products are not used in compliance with the advices given.

If the product should not meet the quality requirements, we will only reimburse up to a maximum of the purchase price of the product. We accept no responsibility whatsoever and shall under no circumstances be liable for damage or consequential loss arising from the use of the product.

For information concerning safe use and storage, please refer to the safety data sheet of the product concerned.
